

⚠ Safety Note: Ravenswood Gold does not publish site-level safety data publicly. Queensland Surface Mineral Mine industry averages (RSHQ) are used as a proxy benchmark. Ravenswood's actual SAFR and HPIFR may differ from the industry figures shown

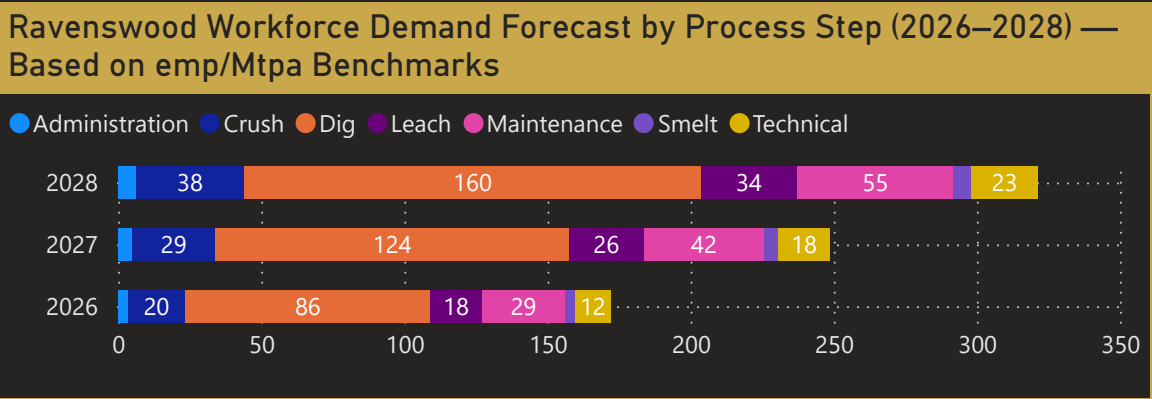

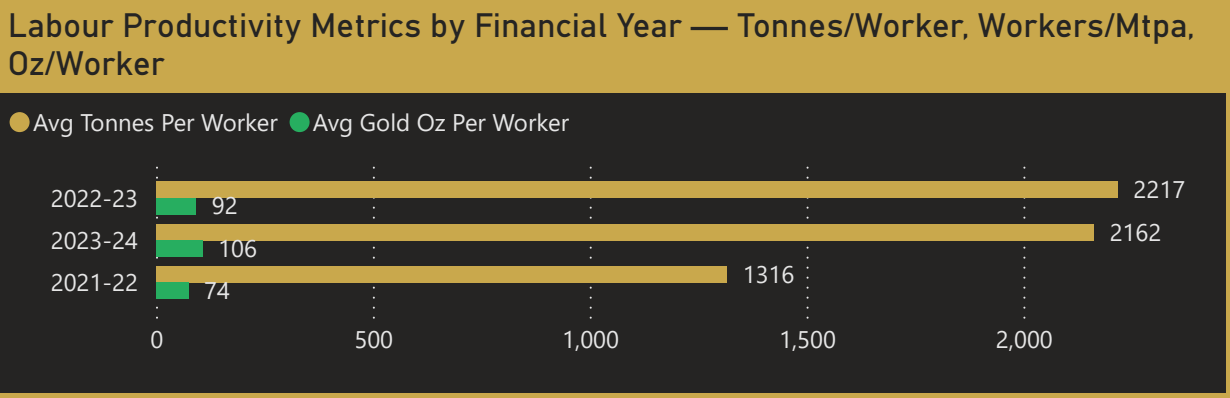

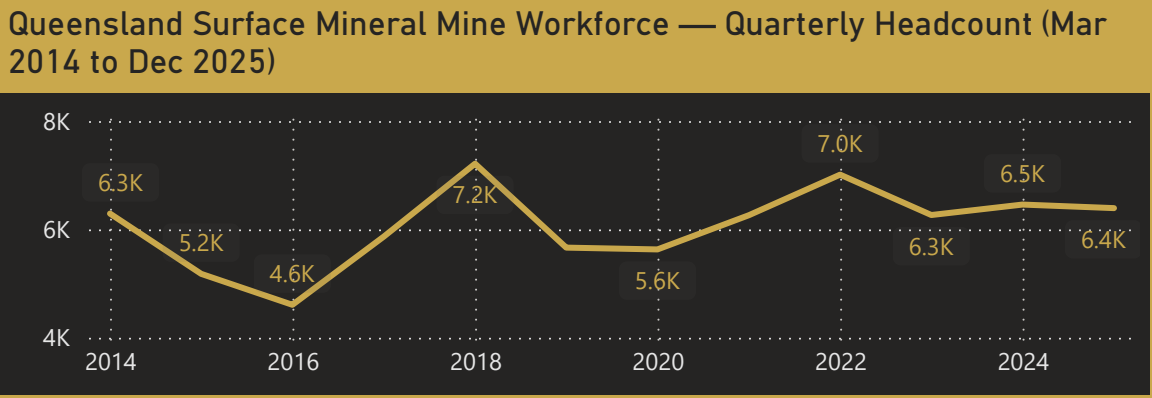

Production Pillar — Ore Throughput, Recovery Rate & Doré Output | Queensland Gold Sector Proxy | FY2021-22 to FY2023-24

*Includes processed material sourced from outside Queensland per Qld Dept of Resources data description

Production Performance vs Target — Ravenswood Gold Proxy (Source: Qld Govt Media Statements)					
Metric	Category	Actual	Target	Unit	Achievement %
Gold Production	Production	150,000.00	200,000.00	oz per year	75.00
Ore Throughput	Production	4.50	8.40	Mtpa	53.57
Recovery Rate	Production	85.00	91.00	%	93.41

Labour & Workforce Pillar — Headcount, Productivity & Skills Shortage | Queensland Surface Mineral Mines Benchmark | FY2021-22 to FY2023-24

Labour Performance vs Target — Ravenswood Gold Proxy (Source: MCA 2024, Qld Govt Media Statements)

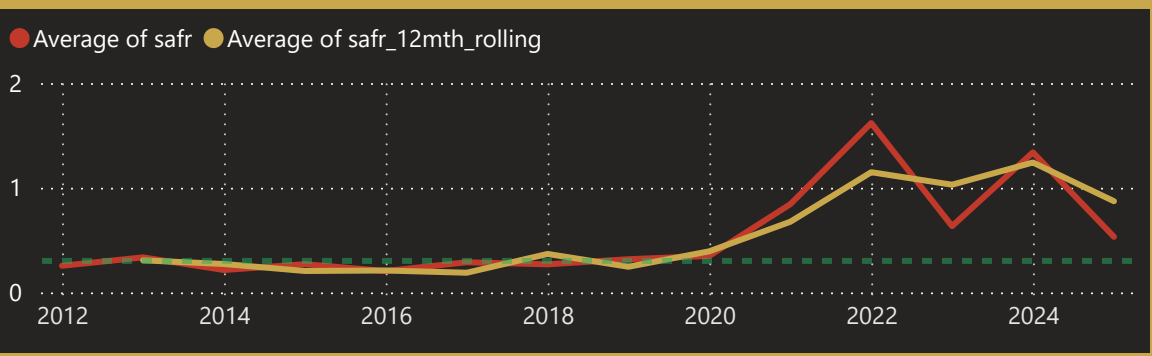

metric	category	Actual	Target	unit	Achievement %
Workforce Size	Labour	400.00	500.00	direct employees	80.00
Tonnes per Worker	Labour	11,250.00	21,000.00	tonnes per worker	53.57
